Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 30 November 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, line 2, "the cup" lack antecedent basis.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 4-7 and 9-13 are rejected under 35 U.S.C. 102(e) as being anticipated by Lasserre et al. (6,722,532). Lasserre et al. disclose, in figs 1, 4, 13 and 19, a fluid dispenser comprising:  
  
two distinct dispenser units 2, 4, each comprising a fluid reservoir defining an opening , a dispenser member 15 for taking and dispensing the fluid from the reservoir, and a fastener member 16' for fastening the dispenser member 15 on the opening of

Art Unit: 3754

the reservoir; and a common outer shell 25 in which at least the two reservoirs are housed, the shell 25 including receiver means 16 for receiving and holding the two dispenser units inside the shell, and wherein the receiver means form two snap-fastener housings 18, the each fastener member 16' forming a peripheral radial flange 16' which extends outwards, and which snap-fastens in a respective housing so as to hold the respective dispenser unit in the shell; a blocking means 5 for blocking the dispenser units 3, 4 in the receiver means; blocking means 5 comprising a cup fastened on the shell and coming into blocked engagement with the dispensing units via a dispenser head 10 .

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lasserre et al. in view Harman (6,308,863).

Lasserre et al. do not disclose the shell provided with a bottom wall and the reservoirs do not come into bearing contact against the bottom.

Harman teaches, in fig. 1, a fluid dispenser comprising two distinct dispenser reservoirs 22, 24 and a shell 12 provided with a bottom wall 16 and the reservoirs do not come into bearing contact against the bottom.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the shell 25 in the Lasserre et al. invention with a bottom wall 16 and the reservoirs do not come into bearing contact against the bottom, as taught by Harman, in order to house the dispensing reservoirs completely in the shell.

### ***Response to Arguments***

7. Applicant's arguments with respect to claims 1 and 4-13 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
